YARROWONGA VIC 3730**

Yarrowonga Apiaries was established in 1978 by third generation beekeeper, Jason and his wife Lauren. Jason grew up learning about bees and is passing on this knowledge to his wife and their kids.

Each member of the family is involved in the business to some degree, from looking after the bees, honey packaging and product making to market sales and social media. Together, they produce the highest quality, fresh local honey.

Yarrowonga Apiaries specialises in ethically sourced, cold spun raw honey. They also stock a range of handmade products including beeswax food wraps, candles and beauty products.

Their honey and beeswax are ethically harvested to ensure the bees have enough honey to survive through the winter. Their bees also pollinate fruits and vegetables from local farms.

You'll find Yarrowonga Apiaries at local farmers markets, or you can buy their products online.

# Zankers Farm

 **712 Walshs Bridge South Road  
MUNDOONA VIC 3635**

Zankers Farm is a family operated regenerative and organic farm. They believe that healthy food begins with healthy soil, and by implementing regenerative farming practices, they are also healing the land.

The animals, with planned management, help build soil, fertilise pastures, improve water filtration and increase the diversity of pastures. The meat is raised in a way that's environmentally sustainable, uses low stress management, is humane and naturally healthy. The result is amazing flavour and quality of produce.

It truly is a team effort at Zankers Farm, and "many hands make for light work". Each member of the family has their own responsibilities from milking cows, breeding animals and collecting eggs to harvesting garlic and producing their black garlic paste.

Order online or stop by their farm gate store and pick up your favourite beef and pork cuts as well as fresh garlic, black garlic paste, chicken and duck eggs.
